Subject: RE: FMC SEP 14 Fort Hall Health Study Under the RCRA FMC Consent Decree

Hi Andy, where is says that the Communication and Education Plan (CEP) must be approved by EPA, who is in charge of that approval, and who would be involved with the review? Beyond being familiar with the findings, are there any obligations for the R10 RCRA program as a result of the completion of this study?

Thanks!

FYI – attached is the final supplemental environmental project (SEP) report, communication plan submitted for EPA approval, cover letter and letters from 2 of the study design panel members who assisted with the planning and implementation of the study.

Andy
